

*** You must be connected to Bulldog_Student to use WiFi printing in the Shipman library ***

Print from your device

Important: Some of these steps work only on Android 9 and up. [Learn how to check your Android version.](#)

You can print from some apps on your phone. To print from your phone, add a printer that can get data by Wi-Fi or mobile network.

Turn printing on or off for your phone

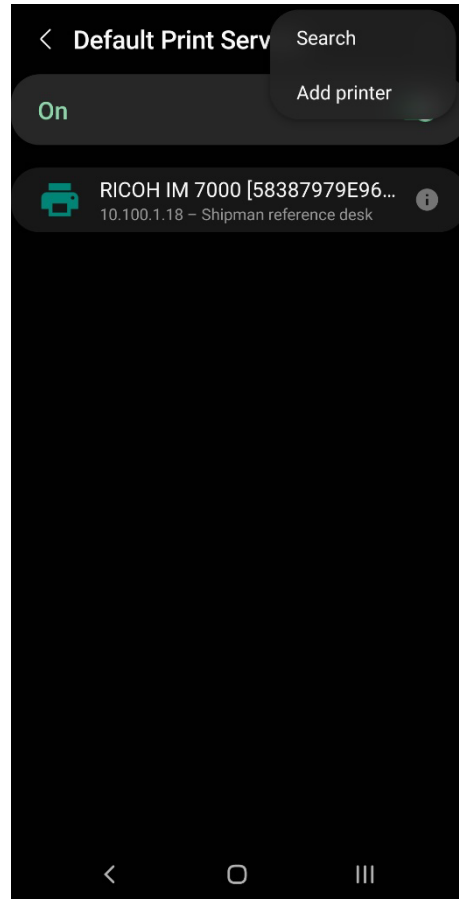

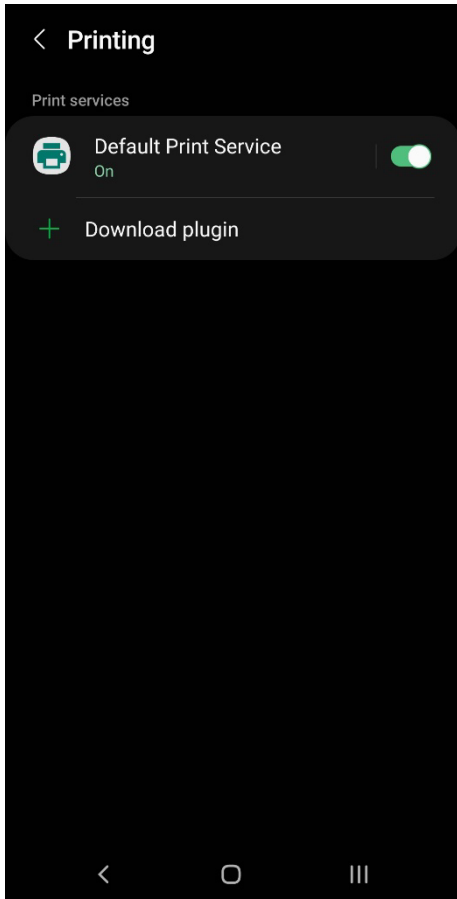

1. On your phone, open the Settings app .
2. Tap **Connected devices** > **Connection preferences** > **Printing**.
3. Tap a print service.
4. Turn the print service on or off.

Add & use a new print service

To add a print service:

1. On your phone, open the Settings app .
2. Tap **Connected devices** > **Connection preferences** > **Printing**.
3. Tap **Add service**.
4. Enter the printer information.

1. Click on '**Default Print Service**' and then click on the 3 dots  in the upper right-hand and select '**Add printer**'

2. Select **'Add a printer by IP address'**. Enter the following IP address and select

Add: 10.100.1.18
